Express JS -Google  
Authentication Terminal

HTML: HTML5

## LANGUAGES

English

arabic

Spanish

## EDUCATION

**National Diploma,**  
Rufus Giwa Polytechnic, Owo

Mar 2011 - Dec 2013

## EMPLOYMENT

**Front end developer**

Jan 2021 - Oct 2022

Janis tradomedical, online

- I am responsible for developing a fullstack web application by integrating REST API and working closely with back-end developers.
- I design the website's user interface based on Figma design and ensure it is user-friendly To keep up with the latest trends,
- I research and incorporate the newest software and tools into the web application.

## PROFILE

Frontend engineer proficient in writing clean and reusable code. To maintain and improve the usability of online applications, I keep up with the most recent tools. My professional objective is to create methods and software tools that enhance the delivery of services and result in great projects.

## HOBBIES

- critical thinkin
- Singing
- physical exercise

## QUALITIES

- Responsive Design Skills:  
Being able to create websites that work well on various devices and screen sizes, Understanding media queries, flexible layouts, and mobile-first design principles.
- Version Control/Git:  
Proficiency with version control systems like Git and keeping track of code changes.
